PROJECT EXPERIENCE

Outdoor Events Log — Outdoor Events Log

- Created Web service in Java using Spring framework to allow users to log entries based on outdoor activities and tag the location using GoogleMaps API.
- Coordinated with three other team members remotely to construct the application.

WORK EXPERIENCE

Forensic Review Analyst — Watchtower Security, Maryland Heights, MO

June 2018 - Present

- Investigate, analyze, and review surveillance camera footage remotely from locations across the country.
- Edit findings into an easily digestible video and write a comprehensive summary of the findings.
- Daily interdepartmental coordination to diagnose system irregularities. Daily intradepartmental collaboration to ensure smooth operations.
- Adapt quickly to newly implemented practices in the department which help reduce ticket turnaround times.

Warehouse — Express Medical Supply, Fenton, MO

June 2016 - March 2018

- Maintained two 10,000 square foot warehouses, with approximately 4000 on hand inventory items and 1200 bin locations.
- Trained new team members. Developed new processes for workstation layout, shipping material storage, and order picking.

Store Manager — Sunshine Daydream Imports, St. Louis, MO

May 2007 - June 2016

- Managed a team consisting of 12-15 members. Supervised up to eight sales associates simultaneously.
- Oversaw two store expansions and annual sales growth of 5%-25%.
- Built rapport and loyalty with regular customers.
